Anti Cellulite And Body Contouring - Endermologie

Cellulite is the uneven dimpling or "orange peel" appearance of the skin affecting more than 90% of women. Marani pioneered the use of Endermologie, a unique non-invasive way of shaping your body, reducing cellulite and improving general well being. It works by exercising the skin and body's connective tissue breaking down fibrosis around problem fat cells, improving blood circulation and lymphatic drainage. Collagen and elastin production is also boosted resulting in a healthier rejuvenated skin tone.

Endermologie is the first cellulite treatment in the world to be approved by the FDA (American Food and Drug Administration).

Remedial Massages & Endermologie are covered by most private health insurance companies.

Peels

from \$79

Our Medical grade peel will require a 2 week preparation prior to treatment unless advised otherwise by Beauty Therapist.

Osmosis Facial Infusion – Orange Peel. Facial Infusion is a non-invasive peel, with its potent liposomal delivery of calming, antibacterial, lightening and (8) dermal remodeling ingredients is great for every skin condition. It is extremely safe because it is free of any alpha/beta hydroxy acids and it is therefore tolerated by all skin types. We see mild to moderate exfoliation 2-3 days after the peel which lasts for another 2-3 days usually. The peel is gentle but the results are significant!

A-Zyme Peel, this revolutionary new Treatment combines fast-acting potent ingredients Retinol and Bromelain anti-inflammatory to refresh, refine, intensely hydrate and plump your skin. The A-Zyme Peel is a break through technologically advanced formula. Separately these ingredients are well recognised as key active ingredients renowned for their anti-aging and exfoliating effects on the skin. However when used in combination they offer advanced benefits as they work synergistically to accelerate cell turnover to plump, firm and hydrate the skin.

Mandelic Peel, which is derived from bitter almonds, has a high level of Alpha Hydroxy Acid (AHA) to more efficiently eliminate dead skin cells, absorb excess lipids on the skin, unblock pores, break down intercellular bonds and activate skin's natural regeneration cycle. Mandelic acid is a well tolerated peel with minimal downtime, that can be used anywhere on the body and is safe during pregnancy. It is not suitable for those who are allergic to nuts. A minimum of 6 fortnightly treatments with Ultraceuticals homecare and a daily application of Protective Daily Moisturiser SPF30+.

Lactic 30% or 50% strength hydrating and exfoliating Alpha Hydroxy Acid. Lactic Acid peels are excellent for resurfacing the skin, increasing skin's moisture levels and for fine lines, hyperpigmentation and uneven texture. Lactic Acid is more hydrating than Glycolic and works as effectively to firm and smooth the skin's surface, reducing the visible signs of ageing.

Vita peel is a high-strength AHA/BHA solution is developed to help improve the appearance of discoloured and sun damaged or aged skin. Benefits are Resorcinol and bearberry are an effective combination to help with the appearance of pigmentation and uneven skin tone also helps to reduce the appearance of fine lines.

Brightening peel this radiance-boosting mask combines a powerful blend of 8 skin brightening agents to rapidly reduce the appearance of hyperpigmentation, dark spots and blotchiness to reveal a luminous complexion.
